

LinkFixerPlus™

Fix broken links automatically!

Success Stories

"The first time I used the Inoculate/Cure process of *LinkFixerPlus*, I immediately saw how I could revamp large Websites without worries. What would normally take hours or days can be accomplished in minutes with *LinkFixerPlus*."
— C. Phillips, Visual Edge Design, Inc.

"Before, I would stumble onto a broken link to a site, then I would fix it manually. Now I use *LinkFixerPlus* to keep a clean and well-linked Website and spend a fraction of the time doing it!"
— D. Dobson, University of Florida College of Engineering

"The Rename/Move function was very useful because I am constantly reorganizing my Website. *LinkFixerPlus* automatically maintains all the links when I rename or move the HTML files."
— E. Eremin, Perm State Pedagogical University, Russia

"I have over 1,200 links on my company's Website. Before *LinkFixerPlus*, I had to manually go through every link in each Web page, one by one. Imagine checking over 1,200 links manually. Using *LinkFixerPlus*, this same process took only seconds and saved me at least eight hours' worth of manual link checking."
— C. Plouff, CJs Creations

"*LinkFixerPlus* can be a handy tool for Web design companies and would allow for the quick and easy managing of links on our clients' Websites."
— P. Malone, Verio

"*LinkFixerPlus* saved me days of work! And it will make me so much more money from increased productivity."
— S. Lemon, Sanddollar Enterprises

"I had lost some jpeg files from one of my Websites. I got the parent files back from the server and ran *LinkFixerPlus*' Cure function. Because I had previously inoculated the parent files, I was able to get the jpeg files found and replaced to the Website in minutes. In the past, a project like this would have taken days."
— K. Brown, K&R Creations
